We believe in sustainability.
For the environment. For our business. For all of us.

Office Depot® believes that sustainability plays an essential role in the success of our company, our industry and our communities, now and for future generations.

We utilize a “ triple bottom line” approach as the framework for our sustainability initiatives: Planet (environmental), People (social) and Prosperity (economic). While the environmental and social aspects help us lower emissions, capture our community impacts, and quantify many other metrics, they ultimately impact our company’s success by creating greater business value.

Our Purpose

As a company of our size and scope, we have an enormous opportunity to provide positive impacts through our customers’ actions as well as our own. That’s why we’ve dedicated much of our energy and resources toward being socially, economically and environmentally responsible.

It’s all about doing the right thing – for our shared planet, our valuable communities, and the future of how we service and support our customers.
